

LPFM is a nuisance. Please do not change your policy to allow for this service. It will interfere with our reception of stations like K-Love, which we feel is an important tool to reach lost souls in our area. Stations like K-Love are also important to me because they don't air the "trash" (i.e. Howard Stern, shock jock, and otherwise smut music) that is heard on some of our local networks. It's nice to have a safe place to turn to where I don't have to worry about what kind of garbage my daughters will hear.
